Sirens and IAF jets reported over Amritsar tonight match local accounts of heightened border activity. This aligns with routine IAF patrols/training (incl. Vayu Shakti 2026 exercises) and recent civil defense tests. Regional tensions from Middle East events have led to airspace alerts and flight disruptions at Amritsar airport, but no official emergency or attack warnings issued by Indian authorities. PAF activity noted as standard patrols on the other side. Stay updated via official sources only. All calm for now.

Indian Army & CISF — Building Readiness Through Joint Training As part of the Military-Civil Fusion Training Programme with the Indian Army, CISF personnel from Jodhpur and Udaipur Airports joined a Counter-Terrorism Tactics Course at the 86 Armoured Battalion, Indian Army, Jodhpur. The opening session of the week-long course was addressed by Colonel Anup Sharma, Commanding Officer, 86 Armoured Battalion. This specialised training focuses on enhancing the operational preparedness, tactical capability, and emergency response skills of CISF QRT personnel, strengthening their ability to counter emerging security challenges effectively. The course also aims to foster greater synergy between the Indian Army and CISF through joint training and knowledge sharing. #CounterTerrorism #QRT #JointTraining #InterAgencyCoordination #NationalSecurity #OperationalPreparedness @HMOIndia @SpokespersonMoD @adgpi @aaijdhairport @AirportUdaipur
